

# **Weekly COVID-19 surveillance report for renal centres in the UK**

**All regions and centres – up to 8 April 2020**

## ABOUT THIS REPORT

These weekly reports are produced by the UK Renal Registry (UKRR) using data submitted by renal centres in response to the COVID-19 pandemic. The first report was circulated on Friday 27 March 2020.

The reports are primarily about adults aged  $\geq 18$  years, as well as young adults aged 16–18 years, if they are under the care of an adult renal centre. However, also reported in the key points are aggregate data submitted by paediatric renal centres.

The data collected are deliberately limited so as not to add significantly to the burden of work in renal centres.

## DEFINITIONS

A laboratory-confirmed COVID-19 case is an individual renal patient who has both:

- clinical evidence of COVID-19 disease
- a positive laboratory result for SARS-COV2.

A death associated with COVID-19 is an:

- individual reported to have had a positive result for SARS-COV2.

## CONTACT US

For more information about this report or the UK Renal Registry, please email us at [ukrr.data@nhs.net](mailto:ukrr.data@nhs.net)

## KEY POINTS

For the week ending **Wednesday 8 April 2020**:

- 45 of the 51 adult renal centres in England, 1 in Scotland and 4 of the 5 centres in Wales submitted COVID-19 data to the UK Renal Registry (UKRR)
- Although 1 Scotland centre submitted data, all Scotland and Northern Ireland centres will start contributing to future COVID-19 reports
- All of the 13 paediatric renal centres in England, Northern Ireland, Scotland and Wales submitted COVID-19 data to the UKRR.

**In adult renal centres in England:**

- in the last week (Thurs–Wed) the number of new laboratory-confirmed cases of COVID-19 was 473
- up to 8 April the cumulative number of laboratory-confirmed cases of COVID-19 was 1,681
- in the last week (Thurs–Wed) the number of deaths associated with COVID-19 was 100
- up to 8 April the cumulative number of deaths associated with COVID-19 was 241.

**In adult renal centres in Scotland:**

- in the last week (Thurs–Wed) the number of new laboratory-confirmed cases of COVID-19 was 8
- up to 8 April the cumulative number of laboratory-confirmed cases of COVID-19 was 27
- in the last week (Thurs–Wed) the number of deaths associated with COVID-19 was 4
- up to 8 April the cumulative number of deaths associated with COVID-19 was 6.

**In adult renal centres in Wales:**

- in the last week (Thurs–Wed) the number of new laboratory-confirmed cases of COVID-19 was 19
- up to 8 April the cumulative number of laboratory-confirmed cases of COVID-19 was 57
- in the last week (Thurs–Wed) the number of deaths associated with COVID-19 was 0
- up to 8 April the cumulative number of deaths associated with COVID-19 was 5.

**In paediatric renal centres in England, Northern Ireland, Scotland and Wales:**

- most centres reported zero positive cases
- in the last week (Thurs–Wed) the number of new laboratory-confirmed cases of COVID-19 was 0
- up to 8 April the cumulative number of laboratory-confirmed cases of COVID-19 was 2.

## SURVEILLANCE

### ALL REGIONS AND ADULT CENTRES IN ENGLAND, SCOTLAND AND WALES

**Table 1a** Number of new reported laboratory-confirmed COVID-19 cases and deaths within the last 7 days (Thursday 2 to Wednesday 8 April 2020) in adult renal centres in England, Scotland and Wales by region, renal centre and country

The delay between the NHS tracing process and producing this report may result in a possible underestimation of the number of deaths.

Blank cells indicate that the renal centre did not contact the UKRR.

\*Data from University Hospitals Birmingham NHS Foundation Trust (Heartlands Hospital & Queen Elizabeth Hospital).

CKD – chronic kidney disease (i.e. patients with CKD not on RRT); HHD – home haemodialysis; ICHD – in-centre haemodialysis; PD – peritoneal dialysis; RRT – renal replacement therapy; TPLT – transplant; Missing – treatment modality data missing

\*\*Bristol, Exeter, Liverpool Royal and Shrewsbury have submitted data but too late for processing, data will be included in next report. Bangor, Dorset and Plymouth submitted zero-cases

The delay between the NHS tracing process and producing this report may result in a possible underestimation of the number of deaths.

Blank cells indicate that the renal centre did not contact the UKRR.

\*Data from University Hospitals Birmingham NHS Foundation Trust (Heartlands Hospital & Queen Elizabeth Hospital).

CKD – chronic kidney disease (i.e. patients with CKD not on RRT); HHD – home haemodialysis; ICHD – in-centre haemodialysis; PD – peritoneal dialysis; RRT – renal replacement therapy; TPLT – transplant; Missing – treatment modality data missing

\*\*Bristol, Exeter, Liverpool Royal and Shrewsbury have submitted data but too late for processing, data will be included in next report. Bangor, Dorset and Plymouth submitted zero-cases
