Tips for submitting a Quality Improvement abstract

Dont forget to enjoy it - it's a celebration of your QI project done so far

- Use conference guidance
- Know your audience
- Learn from other QI abstracts

- Start early enough
- Involve the project team
- Understand your motivation
- Be clear on the reason for the abstract

- Include title, intro, methods,results & discussion
- Include what has been done before
- Don't be afraid if you have incomplete data
- Data can be in tables and should show change over time
- It should be clear, concise & interesting
- Tell your QI story

- Share draft with project colleagues
- Show to a colleague outside the project
- Check all authors approve
- Ask for feedabck on author order
