

UK Kidney Association

Biostatistician – UK Renal Registry

Salary:	£36,218.16
Contract:	18 months fixed term (in the first instance)
Hours:	37.5 hours per week, flexible working
Location:	Bristol: remote- and office-based hybrid working

The UK Kidney Association works to improve lives by supporting professionals in the delivery of kidney care and research. **The UK Renal Registry (UKRR)** is part of The Renal Association and collates data from renal centres and hospital laboratories to improve the care of patients with kidney disease in the UK.

The role:

This is an excellent opportunity for a statistician with a particular interest in “big data” to join a successful and dynamic team of statisticians working closely with the clinical, patient and research communities. Biostatisticians have input in study design, data processing and analysis and presentation of results for the projects they work on. The successful candidate should ideally have a degree and / or postgraduate qualification in statistics and experience in SAS and / or STATA would be of a great advantage.

Examples of the kinds of projects statisticians are involved in at the UKRR include:

- Performing analysis for annual report chapters
- Pragmatic clinical trials using UKRR data for follow-up
- Analysis of patient reported outcome data
- Development and maintenance of online portals showing key indicators for renal patients
- Research on patients with acute and chronic kidney disease.

The person:

We’re looking for a qualified statistician, enthusiastic and keen to learn new concepts. You must be able to perform statistical analyses using statistical software (SAS or STATA preferably), work with large datasets and perform data validation and testing with high attention to accuracy and detail.

The UK Kidney Association offers:

- Generous annual leave and pension
- Commitment to training and development, with your own annual development budget
- Flexible working culture and remote working
- Employee assistance support

How to apply:

For further information on the role or to apply please email Jennifer.barwell@renalregistry.nhs.uk. Please include in your application your CV and a covering letter outlining your experience and skills highlighting your suitability for this vacancy, against the requirements outlined in the job description.

Closing date: Wednesday 13th October 2021
