

Developing a project aim and scope

Leeanne Lockley

Aim and Objectives

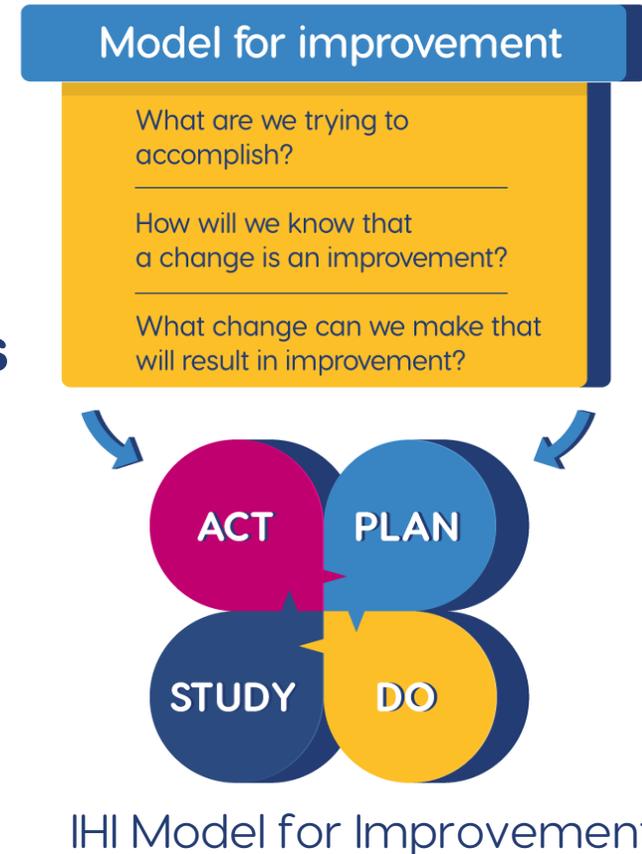

- The aim of this workshop is to provide you with the skills to develop an aim statement
- By the end of the workshop you will have an understanding of:
 - A SMART aim statement
 - How to you share your statement with your organisation and wider community
 - Developing project scope

Delivering 10 steps in QI

KQUIP Methodology

1. Agree an area for improvement
2. Involve and assemble your team
3. Understand your problem/ system
4. Define project aim and scope
5. Choose 'just enough' project measures
6. Develop change ideas
7. Test change ideas (PDSA)
8. Measure impact of changes
9. Do further PDSA cycles
10. Implement successful changes

Definition of aim statement

The Institute for Healthcare for Improvement (IHI) defines aim statement as:

“A **precise** description of **clear** and **specific plans** for the improvement work ahead”

Examples of SMART Aims

Specific
Measurable
Achievable
Relevant
Time bound

20% of prevalent patients on dialysis treatment are via home dialysis therapy (PD / HHD) by 31/12/2022 (or 20% increase for units already achieving)

To achieve national targets for home dialysis

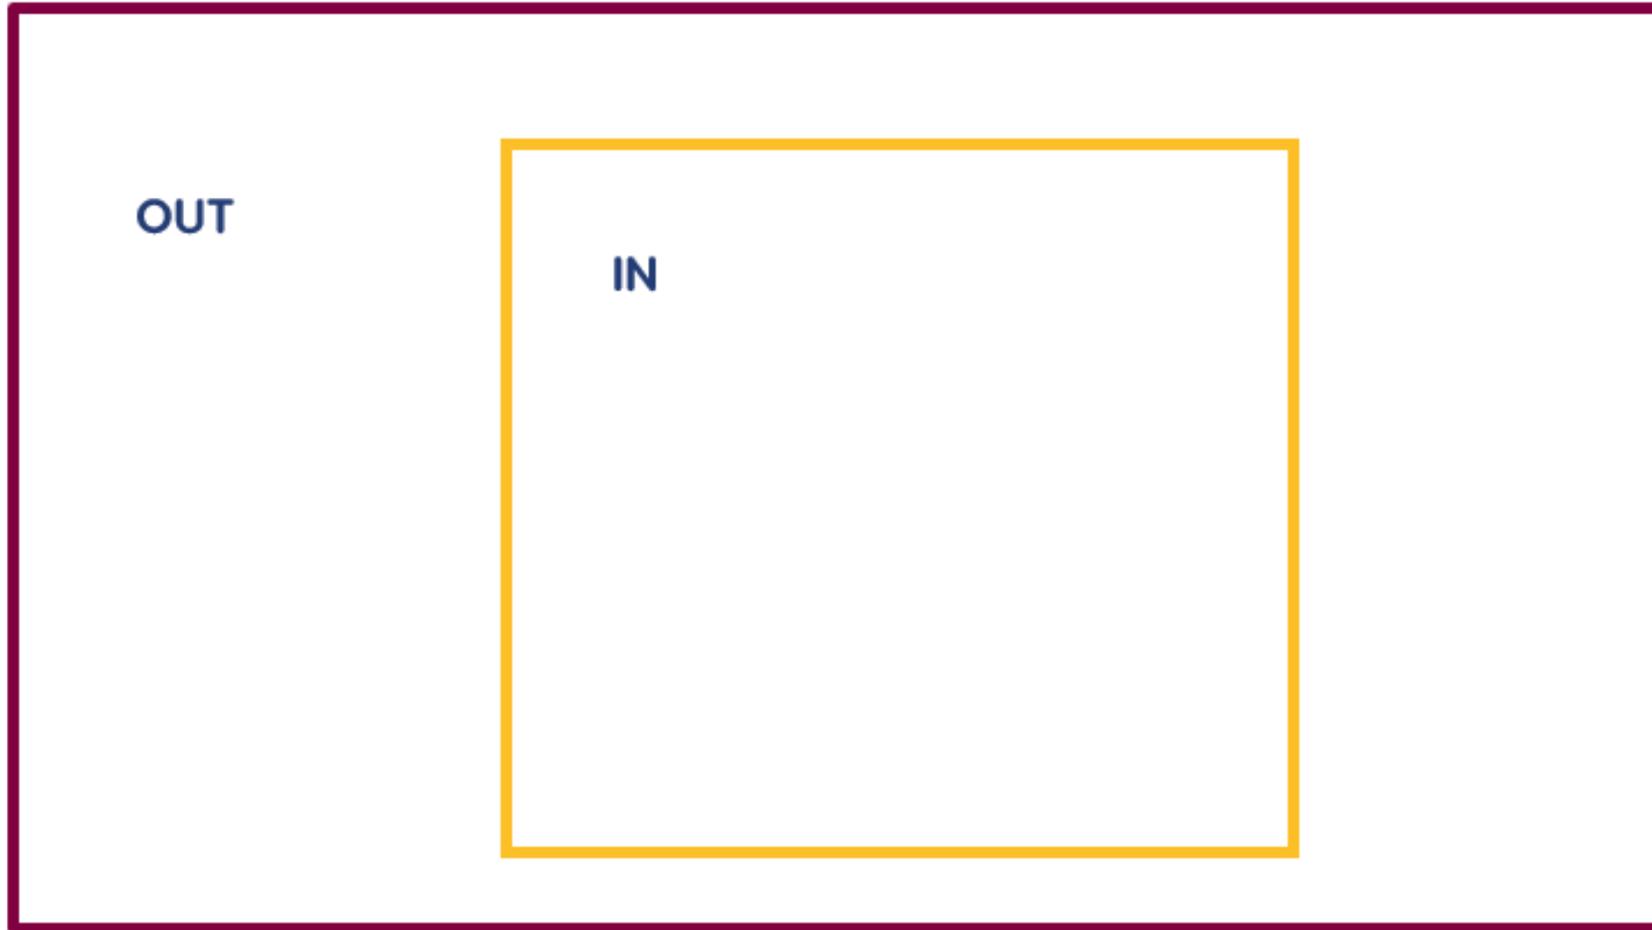

20% of patients start RRT with a pre-emptive transplant by 01/01/2024

70% of cannulation staff will have completed the MAGIC E-Learning by Dec 2021

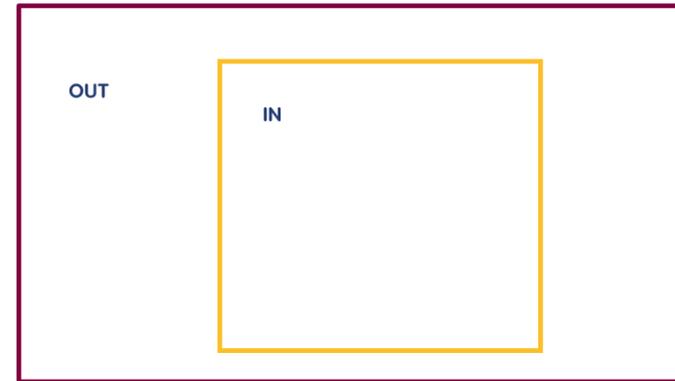

KQuIP

Scope

Now its over to you to develop a draft regional aim and project scope

Breakout room instructions

TITLE	LINK
Streamlining Transplant Pathway	Breakout room 1
Improving Surgical & Radiology Pathway for Dialysis Access	Breakout room 2
Improving Psychosocial Care	Breakout room 3

- Please allocate yourselves in the breakout room you should be attending – the **link** has been posted in the chat
- Please press the **join button** - this will direct you to the breakout room
- You will need to press the **leave** button and use the **re-join button** to get back here into the main room.
